

Items Needed by all Participants for Slo Renn Faire

For those with tents of over 400 square feet or fabric structures (canopy) of over 700 square feet (a canopy has no sides) If you have a group of canopies together with an aggregate size of 700 square feet you will also need to maintain a permit from the San Luis Obispo Fire Department.

1 10# abc extinguisher at each guild and vendor site. This can be more if your structure is of a large size.

Mobile Food vendors will need the following forms with them and signed off by the City of San Luis Obispo.

1. Mobile food preparation vehicle permit application. If you do business in the City of San Luis you should already have this. Not a county permit this is exclusive to the city of SLO. Your food truck will also need an inspection by the City Fire Department. These can be found at the SLO city Fire web site

<https://www.slocity.org/government/department-directory/fire-department/fire-prevention>

2. The proper Fire extinguisher for your equipment used to prepare food. At least one operable 2A:10 BC extinguisher. If it is a vehicle the inspection will cover this no need to redo all of this if you already have a permit from the City of SLO.

Wooden structures for food vendors where open flame is used are required to Have at least 1 10 abc extinguisher. They will also need to have a floor that is fire resistant, a sheet of cement board or similar product, or the ground needs to be free of flammable material.

Fabric structures for food vendors where open flame is used must have an open area above to prevent the possibility of fire They will also need to be Flame Retardant regardless of size. They will also need to have a floor that is fire resistant, a sheet of cement board or similar product, or the ground needs to be free of flammable or the product will need to be cooked outside of the fabric structure.
